EDUCATION

Cornell University — Ithaca, NY
PhD in Statistics — Aug 2023 – May 2029
MS in Computer Science — Aug 2025 – May 2029

Brigham Young University — Provo, UT
BS in Mathematics

- Relevant Coursework: Statistics, Probability, Linear Models, Statistical Computing, Optimization, Linear Algebra, Machine Learning, Data Structures and Algorithms

EXPERIENCE

Stevens Capital Management (SCM) — Radnor, PA
Quant Research Intern — Incoming Summer 2027

- Incoming quantitative alpha research intern for summer 2027

Blackrock — San Francisco, CA
Quant Research Intern — Incoming Jan 2027

- Incoming quantitative alpha research intern at Blackrock Systematic, January-March 2027

Cornell University — *Department of Statistics* — Ithaca, NY
Quantitative Researcher — Aug 2020 – Present

- Researching the effects of nonstationary on modern stochastic optimization methods in machine learning
- Collaborating with New York Presbyterian Hospital to predict heart failure in previously undiagnosed patients
- Developed multimodal deep learning models combining ECG images and tabular clinical data

Barclays Investment Bank — New York, NY
Quant Analyst Intern — June 2025 – August 2025

- Developed a quantitative risk model for prime services multi-billion-dollar fixed income book
- Estimated client-level probability of default and associated liquidity costs under stress scenarios to quantify exposure
- Worked with internal developers to design API endpoints and prepare model for integration into production systems

Parsha Works — *Freelance Software Consulting* — Provo, UT
Co-Founder/Software Engineer — Mar 2022 – Aug 2023

- Co-built backend software for event ticketing system from scratch using Django and sold it for $50,000
- Met all software checkpoint deadlines and shipped fully finished product a month ahead of schedule
- Built backend software using Selenium to web scrape 10+ websites generating keyword-specific real estate leads daily

Duality Group — *Quantitative Hedge Fund* — New York, NY
Quant Research Intern — May 2022 – Jul 2022

- Predicted returns of several hundred US equities using an ensemble of methods including gradient boosting and NNs
- Used novel quantitative factors to model enterprise value using penalized regressions (L1 and L2 penalties)

BYU Dragn Lab — Provo, UT
Deep Learning Researcher — Oct 2021 – May 2022

- Natural Language Processing: Co-wrote paper on machine translation for low-resource languages
- Implemented and fine-tuned transformer model in Python to add cultural embedding in machine translation

SELECT PAPERS

- **Cameron J. Hogan***, Sharan Sahu*, Abir Sarkar*, Martin T. Wells, "Adapt or Forget: Provable Tradeoffs Between Adam and SGD in Nonstationary Optimization", *Submitted to Neurips 2026* (* = equal contribution)
- Edward Lin, **Cameron J. Hogan,** Michael King, Yuchen Xu, Daniel Coulson, Martin T. Wells, "Prediction of Right Heart Catheterization Hemodynamics using an Electrocardiogram-based AI model", *In Preparation*
- **Cameron J. Hogan***, Sharan Sahu*, Martin T. Wells, "On the Provable Suboptimality of Momentum SGD in Nonstationary Stochastic Optimization", ***ICML 2026*** (* = equal contribution)
- Luca Candelori, Alexander G. Abanov, Jeffrey Berger, **Cameron J. Hogan**, et al., "Robust estimation of the intrinsic dimension of data sets with quantum cognition machine learning", *Nature Scientific Reports, 2025*

- Christopher J. Gonzalez, **Cameron J. Hogan**, Mangala Rajan, Martin T. Wells, "Life-Threatening Complications in Relatively Lower-risk Patients Hospitalized with COVID-19: A Retrospective Cohort Study", *PLOSE ONE, 2022*
- Nathaniel Robinson, **Cameron J. Hogan**, David Mortenson, Nancy Fulda, "Data-adaptive Transfer Learning for Low-resource Translation: A Case Study in Haitian", *LoResMT 2022*

ADDITIONAL INFORMATION

- 2nd place at 2024 Jane Street Estimathon at Cornell University
- Co-founder of BYU Quant Finance Club; grew club to 15+ members and led firm visit trip to NYC
- Cornell University Fellowship (Awarded to top 2 incoming PhD students in Department of Statistics)
- Deans list of Brigham Young University College of Physical and Mathematical Sciences
- Brigham Young University full-tuition academic scholarship (merit-based)
- Brigham Young University Burton Scholarship (merit-based, half tuition)
- Programming Languages: Python, R
- Relevant Python Packages: Pandas, NumPy, Scikit-Learn, PyTorch, Matplotlib, XGBoost, Statsmodels
- Relevant Skills: statistical modeling, data analysis, machine learning, transformers, model selection, Git, Linux
